STEAMSHIP CHARTERED TO BRING AMERICANS HOME

1800 WILL SAIL ON 18TH—OTHERS WILL LEAVE EUROPE LATER.

PARIS, Aug. 15.—That United States Ambassador Herrick has chartered the steamship Rochambeau to take 1800 American refugees home was announced here. The Rochambeau is scheduled to sail the 18th. Four hundred more Americans will sail the 19th on the steamship Espérance.

The French liners Lafrance and Chicago already have sailed with 2000 Americans as passengers. Many Americans from Switzerland are registering at their embassy. They made the journey to Paris in a freight car.

WASHINGTON, Aug. 15.—Americans in Europe are moving from one country to another at will, according to advice received at the state department. The American embassy at St. Petersburg stated most Americans had left the city and that their departure wasn't hampered in any other cities of Russia. Ambassador Gerard at Berlin said Americans are leaving Germany as fast as trains could carry them.

Building Shows Increase. CHICAGO, Aug. 15.—Building operations in the United States showed an increase of 15 per cent last month, as compared with the same month a year ago, according to statistics which will be published by the Construction News.

Every section of the country showed an increase, while losses were widely scattered.

NEWS OF FARM AND RANGE

LOCAL WHEAT MARKET MAY BE OPENED SOON

Indications that the local wheat market, which has been closed since the beginning of the European war, will reopen soon is had in the news from Portland that war risks have been secured on grain cargoes from that city to the United Kingdom and that shipping will once again be resumed on an extensive scale in the near future.

While the local buyers have not as yet received any instructions to purchase additional grain, they declare that, if the reports from Portland are authentic, that the market will undoubtedly reopen within a short time. The British steamer Fernley and the Norwegian bark Alcides are reported to be loading today.

Quotations on war risks are said to be around 4 1-2 per cent, but as there is a general stir toward resuming business, insurance agents in Portland cabled abroad yesterday for definite advice as to the rate and expect official quotations today. Exporters say there are other complications besides war risks, but with assurance that the cargoes can be covered there will be no reason for delaying the loading of vessels.

That financial assistance will be forthcoming when war risks are obtainable is felt certain and exporters who have been bothered through inability to care for all wheat contracts will be enabled to carry on their affairs as before.

Vincent Grange Fair, Sept. 11.—With a premium list bigger and better than the one last year and indications that exhibits will be on a more numerous scale, preparations are now being completed for the second Vincent Grange fair, which will be held this year on Friday, September 11.

One of the conditions which must be conformed with is that no display can be made of products grown outside of the Hudson Bay, Vincent, Fruitvale or Pleasant View districts.

7300 Sacks From 260 Acres.—J. M. Banister finished a run of 15 1-2 days last Saturday with his combined harvest. He had a good crop, taking about 7300 sacks of wheat from 260 acres. He has 160 acres more of wheat on leased land on the reservation, which is being threshed this week by Watts brothers with their stationary, as the owners of the land prefer that method of harvesting.—Weston Leader.

Grasshoppers Injure Potatoes.—Grasshoppers are reported to be damaging the potato crop on the foothills of Peed and Hawley mountains.

Pilot Rock Stock Shipments.—Depot Agent Hoffman has billed out the following live stock shipments since our last report:

Henry Lazinka shipped three cars of cattle to North Portland Saturday, which were said to be the finest cattle ever received for shipment at this station.

On the same date Mr. Blackwell sent four cars of excellent cattle to the Portland market.

A shipment of one car of sheep was made to Shoshone, Idaho, by Ben Darrah, who made the purchase from the Cunningham Sheep and Land Co.

Another shipment of sheep was made during the week by Donald Ross, who sent two cars to North Portland on Saturday.

A special train crew was sent out from Pendleton Wednesday forenoon to take care of Robert Stanfield's shipment of seven carloads of sheep headed for the Chicago market.—Pilot Rock Record.

Sold Wheat for 75c.—Scott Banister has finished hauling his wheat, which he sold at 75 cents the bushel, and is "resting easy" over market conditions. He had 1265 sacks of heavy wheat, free of smut, from 70 acres.—Weston Leader.

No Potatoes on Mountain.—George Mitchell was down from his mountain ranch Tuesday. Mr. Mitchell is harvesting his wheat and barley crop, which is light this year on account of lack of rain. He says there will be practically no potatoes raised on the mountain this year, unless rain comes at once. The vines are drying up and the potatoes are small. He is of the opinion that there will be few if any, tubers to market from the mountain ranches this fall.—Athens Press.

Harvesters Win Two Suppers.—The G. W. Stages harvest crew assimilated and enjoyed an oyster supper Saturday evening and a chicken dinner Sunday at the expense of Emery Stages, says the Weston Leader. They had been promised the oysters if they threshed 800 sacks in one day, and the chicken if they got a thousand. Having threshed 1001 sacks of barley Saturday on the Stages eighty south of town, they came in for both feeds—and everybody was happy. Their record is considered extra good for a Holt combine with a 16-foot sickle. Members of the crew present at the feast board were Messrs Sharkey, Fox, Beamer, Cooper and Sylvester.

Palouse Harvesters Burn.—Harvest fires continue in the Palouse. Five more threshing machines were burned Monday near Colfax, five near Albin, two near Vollmer and one near Moscow. A combined harvester was blown up by a smut explosion near Lewiston, and 30 acres of grain were also destroyed in the fire which followed. There is still talk of incendiarism around Colfax and an Australian harvest hand was arrested there Monday on a charge of placing matches in the grain. Threshing machines destroyed this season Whitman coun-

ty alone have reached a total of more than one hundred.

Take Agency for Harvester.—Bentley & McCook, local implement dealers, have taken the agency for the Harris Gar Harvester, demonstrated this week on the Tom Thompson ranch and which cut 40 sacks of down barley to the acre.

HERZEGOVIA REVOLTS AGAINST AUSTRIANS

ATHENS, Aug. 15.—A revolution in the Austrian province of Herzegovina is hampering the Austrian military authorities in their efforts to read a combined Serbian and Montenegrin invasion, according to dispatches received here.

The province's population is largely Serbian, and large numbers of its people, it was stated, are already armed and in the field to help the invaders. Instead of taking steps to check the Serbians and Montenegrins, the Austrians are forced to fight these rebels.

With Montenegro already in control in southern Dalmatia and the allied Serbians and Montenegrins taking position after position in Bosnia, it was expected their forces would be in Herzegovina within the next few days.

Fair Will Open On Time.

WASHINGTON, Aug. 15.—"Notify all foreign governments that there will be no postponement of the San Francisco Exposition," was the substance of a telegram which C. C. Moore, of San Francisco, president of the exposition, has sent to the state department.

The statement was in response to inquiries from Uruguay and Chile as to whether the exposition would still hold of its original plans. In view of the European war, the exposition is to be open February 20.

Wife's Consent Required.

MONTREAL, Aug. 15.—Every married man volunteering for active service is compelled to bring the written consent of his wife before he can be accepted, according to a militia order made public.

Thousands of these consents have been received by the military authorities.

Germans Disarmed.

AMSTERDAM, via London, Aug. 15.—Two German naval aviation officers were arrested and disarmed on the Dutch island of Schiermonnik Oog, off the coast of Friesland, Holland. The aviators had left the German island of Borkum in the North Sea, presumably on a scouting expedition, and had been forced to descend by motor trouble.

Occupation Denied.

LONDON, Aug. 15.—A dispatch from Cetinje, Montenegro, to the Exchange Telegraph company officially denies the occupation of Scutari by Montenegrin troops and also all other reports of hostile intentions against Albania.

France's Dream Comes True; She Has Invaded Alsace

This diagram shows the French dream of forty-four years has come true. Since the Franco-Prussian war the invasion and reconquest of Alsace-Lorraine has been a French obsession. Now her troops are actually within the territory and victorious after several hot fights. They started for Strasbourg, a flourishing German city, and they had hopes of taking it.

The French crossed the border from their mobilization camps at Luneray and Belfort. They went through the passes in the Vosges mountains and had some hard fighting, in which their losses were heavy. But they pushed on and took Altkirch and then the important city of Mulhouse. In the meantime Austrian troops to the number of 40,000 it was reported were in Switzerland (thereby violating the neutrality of the little nation) ready to follow the French. The Germans have retired to Strasbourg, and theorists had it, that the invaders would be caught between two fires. But those who had confidence in General Joseph Joffre, commander in chief of the French army, who was leading the invasion, were not much worried.

CANAL FORMALLY OPEN TO COMMERCE

PANAMA, Aug. 15.—Gay with bunting the steamship Ancon, with the flags of all nations hoisted to mark the international aspect of the occasion, started early today on the first voyage of a big ocean-going steamship through the canal.

It entered the Gatun locks on the Atlantic side at 9 a. m. and is expected to reach the deep water in the channel in the Pacific at 6 p. m. Among those aboard the Ancon were Governor Goethals and other canal officials, and President Porras of Panama and his cabinet.

The Ancon reached Culebra cut 15 minutes ahead of schedule, followed by half a dozen vessels anxious for the distinction of being the first commercial ship to pass through the canal. Gatun employees "locked through" the steamer in record time.

All the lighthouses along the canal were decorated in honor of the occasion. The Ancon was piloted through the big ditch by John Constantine.

Washington, Aug. 15.—Messages of congratulations were exchanged today between President Wilson and Secretary of War Garrison and Secretary of the Navy Daniels and Governor Goethals of the Panama canal zone upon the opening to commerce of the world today of the "big ditch." Officials expected the informal program of unostentatious today to be carried out. A war department vessel, the steamer Cristobal, loaded to the gunwales with isthmian war and navy officials, and a hefty cargo of newspapermen, was given the honor of being the first "official" vessel to go through the inter-oceanic waterway.

The formal opening of the canal will not occur until March, 1915, when President Wilson, Admiral Dewey, cabinet and congress members will head a gigantic fleet. Today active operation for commercial vessels drawing not over 30 feet of water was begun, although smaller vessels including a lighter service, have been passing through for a couple of months. Some of the smaller fruit liners are expected to establish a regular schedule of traffic through the canal, beginning today.

Water Supply Is Short.

LA GRANDE, Ore., Aug. 15.—Long protracted drought and the great drain upon the city's water supply for fire fighting and irrigation purposes has so exhausted the city's supply of mountain water in Beaver creek that it has been found necessary to resort to water from Grand Ronde river for the first time in several years.

Because of his warning notices have been issued advising that all water be boiled before being used for drinking.

ATTEMPT TO CROSS DANUBE IS REPULSED

LONDON, Aug. 15.—Two more sanguinary battles on the Serbian frontier are reported in a message from Nish.

In one it stated the Serbians and Montenegrin allies repulsed a strong Austrian force which attempted to cross the Danube near the Roumanian border. The battle lasted from Thursday night until Friday noon. The Austrians lost heavily.

In other 4000 Austrians crossed the river Save at Schabatz and joined an Austrian force already entrenched. Serbian forces are now opposing them. The result is in doubt.

ANCIENT KINGDOM WILL BE RESTORED TO POLAND

ST. PETERSBURG, Aug. 15.—The Czar issued a proclamation today confirming Grand Duke Nicholas' promise to restore the ancient kingdom of Poland if Russian, German and Austrian Poles stand by Russia in the present war.

Polish autonomy would be reestablished, the czar guaranteed, and all former principalities will be reunited under a lieutenant governor to be named by himself.

Shiny Eggs Are Infected.

WASHINGTON, Aug. 15.—Housewives are warned of green eggs by the department of agriculture, which declared that a green egg contains billions of bacteria.

The department gave the following quality of eggs: Fresh eggs have a bloom or fine powder on them. Shiny eggs are apt to be old ones.
